

Plastic Ingenuity, Inc. Environmental Quality Policy Statement

Plastic Ingenuity is committed to preserving, protecting, and being ever mindful of our natural environment and the communities in which we operate. We strive to operate in an environmentally responsible manner and drive continuous improvement in our processes, products, and service to address our environmental impact.

We Will:

- Comply with the letter and spirit of environmental laws and regulations. We will remain in compliance with the requirements of ISO 14001.
- Work continuously to improve the effectiveness of our environmental management system.
- Provide appropriate environmental training and educate team members, customers, and consumers to be environmentally responsible.
- Work with our customers to promote designs of plastic parts that minimize environmental impact throughout the entire life cycle, including source reduction, product use, and end-of-life.
- Comply with all health and safety requirements for safe use of our products.
- Monitor our environmental performance regularly, including greenhouse gas emissions, through rigorous self-evaluations to minimize impact of company operations on people, animals, endangered species, land protected areas, and ecosystems.
- Use resources, including energy and water, efficiently throughout our operations.
- Reduce operational waste through re-use and recycling whenever feasible.
- Support organizations working to improve recycling of plastics.
- Communicate and reinforce this policy throughout the company and to interested parties, including the public.
- Create and document an environmental framework to maintain, implement, and improve our environmental management system.
